Please inform us by checking box: Patient is □Diabetic, □Pregnant, or has □Special Needs (please specify)

If you or the patient has any questions before the procedure, please call (336)328-3966, RN in Interventional Radiology.

Please fax this signed order form, imaging reports, especially MRI reports (if not done at Randolph Hospital), patient's medication list (to include allergies), office notes and history and physical that was completed within 30 days to (336)328-4416. If this order is for an ESI Series, the patient may call scheduling to schedule their 2nd and 3rd injections.

All Orders must be received within 24 hours prior to the procedure or the patient will have to be rescheduled.

Patient Education:

1. Following procedure, the patient CAN NOT DRIVE for the rest of the day. They MUST have a driver to take them home and for the rest of the day.
2. Nothing to eat or drink 3 hours prior to procedure.
3. Someone will need to be with patient at home for 24 hours after the procedure.
4. The procedure will take approximately 30 minutes, but total time at the hospital may be greater than 1 hour.
5. Diabetic patients may notice a temporary increase in blood glucose/sugar levels and should check their levels once daily or more often as directed by their physician for the following week.

For performing practitioner: □IV Saline Lock, only. □Moderate Sedation
